As a sponsor accredited by the ACCME, Charles R. Drew University of Medicine and Science must insure balance, independence, objectivity, and scientific rigor in all its directly sponsored or jointly sponsored educational activities. Everyone who is in a position to control the content of an educational activity (including the individual’s spouse/domestic partner) must disclose all relevant financial relationships with any commercial interest. The ACCME defines a **commercial interest** as any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients.

The ACCME defines a **relevant** financial relationship as (1) a personal financial relationship, in any amount, with a commercial interest occurring within the past 12 months (whether the relationship has ended or is currently active) and (2) control in planning or presenting educational content addressing specific products/services of that commercial interest (Relevant financial relationships can include such things as grants or research support, employee, consultant, major stockholder, member of speakers’ bureau, etc.)

The Policy on identification of products and for discussing unlabeled uses of products is described as follows. Generic and trade names: Presentations must give a balanced view of therapeutic options. Faculty use of generic names will contribute to this impartiality. If trade names are used those of several companies should be used rather than only that of a single supporting company. Unlabeled uses of products: When an unlabeled use of a commercial product or an investigational use not yet approved for any purpose is discussed during an educational activity, the accredited provider shall require the speaker to disclose that the product is not labeled for the use under discussion or that the product is still investigational.

DISCUSSION OF OFF-LABEL USE

☐ Yes, I will be discussing any off-label uses for purposes other than that for which the product use was approved by the Food and Drug Administration. Please inform the audience at the start of your presentation that you will be discussing off-label usage, and the nature of that discussion.

☐ I will not be discussing off-label uses.

☐ Not applicable to my role as a course director, planner or session moderator.

ATTESTATION TO COMPLY WITH THE ACCME’S VALIDATION VALUE STATEMENTS

☐ I, the author/presenter, will ensure the content of my presentation aligns with the public’s interest and supports the ACCME content validation value statements, which state:

(a) All the recommendations involving clinical medicine in a CME activity [are] based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients.

(b) All scientific research referred to, reported or used in CME in support or justification of a patient care recommendation [conforms] to the generally accepted standards of experimental design, data collection and analysis.

☐ I am not an author or presenter. I am a planner, moderator, editor, reviewer or another person in a position to control or influence the content of this educational activity and will make unbiased decisions about the content of this presentation, ensuring the content supports the ACCME content validation value statements, cited above.

I attest this annual disclosure is correct and complete and will provide any updates/changes to the status of this information during the next year
