\textbf{Dr. Lawrence Robinson} 

Dr. Lawrence Robinson works towards sustainable solutions to reduce asthma disparities. 

"Dr. Lawrence Robinson," said Dr. Robinson, "who would spend money out of his own pocket, gave kids free medication, so kids were exposed to asthma medicine, trying to avoid second-hand pollen."

"The program has two main components—train more allergists and make private better outcomes, you have to do something sustainable. You can't go into a housing project for five years and leave."

That's exactly what he sought to create in his project with the UCLA Immuno logy Center funded by the National Institute of Health. From 1994-2004, the Asthma Reading Ado lescence Program worked with children from the allergy clinic at King Drew Medi cal Center every Saturday. The program taught reading, math and reviewed asthma related topics. The intervention led to a 50% reduction in emergency room visits and improve ments in reading from one to three grade levels. Over 90% of those in this pro gram attended some type of post-graduate education and 40% finished 4-year college. "That's more important, because these students don't have the better resource, they won't be living in the same house their mother lived in, and they won't be in the same community. They will have an opportunity for better care than they had, and that means more care for asthma."

The concert will also feature a guest appearance by James Calhoun on the violin. The concert will mark the upcoming Season Finale of the Inner City Youth Orchestra of Los Angeles (ICYOLA) as part of its 2013-14 Season. The program will be presented at 3:00 p.m. on Sunday, July 8 at the Walt Disney Concert Hall in downtown Los Angeles and will feature a performance of Shostakovich Piano Concerto No. 2. The performance will be composed of three phenomenal young African-American pianists, the Temptations, and the Four Tops! Tickets are available for $25 - $50 and can be obtained from ICYOLA, the Disney Hall Box Office or Ticketmaster. 50% of all ticket purchases are tax deductible. Please contact Ticketmaster at 310-674-8700 for tickets, or for fur ther information.
