Pricing shown above represents a discount from standard ADMC-2 contract pricing. Pricing is available to entities eligible to purchase off the ADMC-2 contract through July 31, 2010.

WSCA III buyers click here or visit [www.hp.com/buy/CAWSCAspecials](http://www.hp.com/buy/CAWSCAspecials) or call 1-866-807-3439 and use Big Deal Number 84511119.

---

1. This system may require upgraded and/or separately purchased hardware and/or a DVD drive to install the Windows 7 software and take full advantage of Windows 7 functionality. See [http://www.microsoft.com/windows/windows7/](http://www.microsoft.com/windows/windows7/) for details.

2. Intel's numbering is not a measurement of higher performance.

3. Dual Core is a new technology designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology and 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel\(^\text{®}\) 64 architecture-enabled BIOS. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See [www.intel.com/info/em64t](http://www.intel.com/info/em64t) for more information.

4. 1 GB = 1 billion bytes, actual formatted capacity is less. Up to 8 GB of hard drive (for XP and XP Pro on consumer and commercial notebooks) is reserved for system recovery software. Up to 9 GB of hard drive (for Vista on consumer notebooks) is reserved for system recovery software. Up to 10 GB (for Vista on commercial notebooks) is reserved for system recovery software. Up to 12 GB (for MCE on consumer and commercial notebooks) is reserved for system recovery software.

5. LightScribe creates a grayscale image similar to a black-and-white photograph. LightScribe media required and sold separately. Does not permit copying of commercially available DVD movies or other copyright-protected materials. Intended for your original content and other lawful uses.

6. DDRAM cannot read or write to 2.6 GB single-sided or 5.2 GB doublesided version 1.0 media. Does not permit copying of commercially available DVD movies or other copyright-protected materials. Intended only for creation and storage of original material and other lawful uses.

7. Wireless access point and Internet service required and sold separately. Availability of public wireless access points is limited.

8. This system requires a separately purchased 64-bit operating system and 64-bit software products to take advantage of the 64-bit processing capabilities of the AMD Turion 64 processor. Given the wide range of software applications available, performance of a system including a 64-bit operating system will vary.

9. Service level and response times for HP Care Packs may vary depending on your geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit [www.hp.com/go/carepack](http://www.hp.com/go/carepack).

10. The Comptrace agent is shipped turned off, and must be activated by customers when they purchase a subscription. Subscriptions can be purchased for terms ranging from one to four years. Service is limited, check with Absolute for availability outside the U.S.

11. Windows\textsuperscript{®} XP Professional is preinstalled on this system and includes end user rights and media for Windows 7 Professional. You may only use one version at a time. You must back-up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data.
