The Impact of Stress and Social Support on HIV-positive African American and Latino Women and Men who have Sex with Men.

Institute for Community Health Research/CHIPTS
Cross-Disciplinary Keynote Speaker Series

Amy Wohl, Ph.D.

Wednesday, September 30, 2009
12:00 PM – 1:00 PM

IMPORTANT: LOCATION CHANGE
Boardroom / Cobb 281
Charles Drew University of Medicine and Science
1731 East 120th Street, Los Angeles
The presentation will also be available by video-conference at:
Los Angeles County HIV Epidemiology Program
and at:
UCLA Center for HIV Identification, Prevention, and Treatment Services (CHIPTS)

This presentation will address how social support and stress have been poorly characterized for persons with HIV, particularly for racial/ethnic minorities. This presentation will present data on general and HIV-specific support and stress and social network characteristics that were collected from 399 African American and Latino women and men who have sex with men (MSM) in Los Angeles County including data collected at OASIS Clinic.

Dr. Amy Wohl is a Chief Epidemiologist with the Los Angeles County Department of Public Health (LACDPH) HIV Epidemiology Program.

* Los Angeles County HIV Epidemiology Program, 600 South Commonwealth Avenue, Los Angeles 18th Floor Conference Room
** UCLA Center for HIV Identification, Prevention, and Treatment Services (CHIPTS), 10920 Weyburn Boulevard, Suite 350, Los Angeles, CA 90024, CCH Conference Room

The Institute for Community Health Research (ICHR) is a collaboration of Charles Drew University of Medicine and Science, the Los Angeles County Department of Public Health and RAND. ICHR is funded by the California HIV/AIDS Research Programs (CH05-DREMM816, CH05-UCI-867 & CH05-RAND-818). This event is also sponsored by the Center for HIV Identification, Prevention and Treatment Services (CHIPTS) (P 30 MH59107).
