Working with a seasoned grant writer and professor, participants will understand the basic steps of writing a successful grant proposal. Through both a lecture format and hands-on writing exercises, participants will learn what should be included (along with what to avoid) in proposal concepts, needs statements, goals, objectives and strategies, program budgets, and evaluations.

After completing this workshop, participants will be able to:

- List various types of public and/or private granting agencies
- Identify elements of a public and/or private grant application
- Determine what should and should not be included in an application

This workshop is presented for all members of the following:

- Public Health Agencies
- Government Agencies
- Educational Institutions
- Community-Based Organizations
- Hospitals and Other Health Care Organizations

Light Refreshments will be served
