Introduction to new Textbook List Format

The Office of Registration and Records has received feedback from CDU students, faculty, and program directors regarding the semesterly publication of the Textbook List. We have considered the recommendations and are preparing to implement some of the suggestions.

In effort to streamline the information collection process, expand accessibility, and aesthetically enhance the List publication, we ask that you use this document to capture information about the texts required for your course(s). Please scroll down to your section and input the required information.

If you have any questions about this new format, please contact the Office of Registration and Records at registrar@cdrewu.edu.

FAQs

Q: If I have multiple textbooks required for a class, do I have to list them twice?

A: Yes. Please use a blank template for each text and list the books from the same class immediately after each other.
